E-Coast.org Named “Site of the Week”

Portsmouth, NH—Brigham Pendleton Web Design & Development is proud to announce that the eCoast web site has been recognized as the “Web Site of the Week” by NH.com, a popular news and information site covering the entire state of New Hampshire.

Pendleton recently redesigned the site [www.ecoast.org] as pro bono project for the Greater Portsmouth Chamber of Commerce, and in doing so, created a dynamic on-line resource for NH Seacoast’s thriving technology community.

The editors at NH.com commented that eCoast.org is an “easy-to-browse” web site with fast-loading pages and “appealing graphics” that “enhance [rather than] distract from the content.”

About Brigham Pendleton Web Design

Brigham Pendleton Web Design & Development provides complete, full-service, award-winning Web services. Clients include advertising and graphic design agencies, web development integrators, small businesses, and not-for-profit organizations. Renown for his ability to apply unique-yet-intuitive designs for a variety of clients and user audiences, Brigham Pendleton’s work has won regional, national, and international recognition, including accolades from the New Media Invision Awards, Interface Reader's Choice Awards, *Mass High Tech*, and the Massachusetts Interactive Media Council's (MIMC) Awards.
